Sunbeam turbo steam master professional iron gcsbcs-112

5 4 3 2 1 Filling The Water Reservoir 1. Make sure the iron is unplugged. Set the Steam Lever to (Dry). 2. Lift the Covered Water Fill Hole to Reservoir. 3. Pour tap water into water reservoir, using the easy-pour cup included with your iron. WARNING: To prevent the risk of burns, be careful when filling a hot iron with water. Hot metal parts, hot water and steam can cause injuries. 1. Make sure the Steam Lever is turned to the 2. Plug the cord into a 120-Volt AC outlet. 3. Press the +/- buttons to select desired Fabric Setting. Allow the iron to heat until wait/ready light turns green indicating the unit is ready. While the iron is heating, make sure it is sitting on its heel rest on a stable, protected surface. Turning Off Your Iron Turn the Steam Lever to Buttons until OFF is illuminated. Unplug the iron from the power source. WARNING: NEVER yank the power cord when unplugging the iron. This can damage the cord. 1. Turn off iron following instructions above. Allow the iron to cool. Please do not return STOP product to the place of purchase! Call 1.800.458.8407 or visit www.sunbeam.com TURBO Steam Master® Professional Iron 7 6 8 11 12 (use tap water) (Dry) setting. (Dry) and press the Fabric Select Visit www.sunbeam.com for an Ironing Guide and Ironing Tips Refer to manual for safety and cleaning instructions. For any questions please call 1.800.458.8407 or visit us at www.sunbeam.com. © 2011 Sunbeam Products, Inc. doing business as Jarden Consumer Solutions. All rights reserved. Distributed by Sunbeam Products, Inc. doing business as Jarden Consumer Solutions, Boca Raton, Florida 33431. Printed in China www.sunbeam.com Quick Start Guide 1. SPRAY MIST® Release 9 2. Covered Water Fill Hole to Reservoir 3. Steam Select Dial 4. Wait / Ready Indicator 5. Fabric Select Buttons 6. SHOT OF STEAM® / Vertical Steam Button (select models only) 10 7. SPRAY MIST® Trigger 8. Soft Grip Handle 9. 360° Tangle-Free Swivel Cord 10. See-Through Water Reservoir / Maximum Fill Line 11. Self Clean Button 12. Soleplate NOTE: While the Steam Lever is turned to the setting, you may still use the SHOT OF STEAM MIST feature, as long as the fabric setting is set to wool, cotton, or linen. Please make sure the water reservoir is approximately ¼ full of water. 1. Follow the instructions for "Filling the Water Reservoir." 2. Plug the cord into a 120-Volt AC outlet. 3. Press the +/- buttons to select desired fabric setting. Allow iron to heat until Wait/Ready light turns green indicating the unit is ready. While the iron is heating, make sure it is sitting on its heel rest on a stable, protected surface. IMPORTANT: When not ironing, always set the Steam Lever to (Dry) and the Fabric Select Buttons to OFF. 2. If you do not use your iron on a daily basis, empty the water reservoir after each use for a longer iron life. To do so, unplug the iron, turn the iron upside down, open the fill hole cover, and allow water to flow from the fill hole. Shake the iron gently to remove trapped water drops. 3. Loosely loop the power cord around the heel rest and store the iron on its heel rest. IMPORTANT: Wrapping the cord around the iron too tightly can damage the cord. GCSBCS-112 (Dry) or SPRAY® SPR-051211-385 P.N. 147424 Works well on synthetic, wool, and cotton Produces plenty of steam Soleplate stays hot Easy to maneuver Helpful customer service Struggled on silk Small water reservoir Tips over easily Courtesy of Sunbeam If you find yourself with large loads on ironing day, the Sunbeam Turbo Steam Master iron promises to be your best friend. In GHRI tests, this iron maintained its soleplate temperature almost to the degree, meaning it will stay hot garment after garment. The Sunbeam boasts a helpful digital display, which includes a handy ready light that goes from red to green to let you know when it's done heating. On the downside, the device's plentiful steam output, paired with a smaller water reservoir, may mean more trips to the sink. You'll also want to extra careful not to bump into the ironing board; though it wasn't among the lightest irons in our test, we found it tipped over easily. (Sunbeam built in automatic shut-off, so the iron will turn off if left idle on its side or face.)
